² The USDA estimated weighted average prices received by farmers are approved by the World Agricultural Outlook Board and released monthly. These estimates were released on June 10, 2005.

³ By law USDA does not publish an estimated weighted average cotton price received by farmers.

Upland cotton (lb) ²	0.724	0.0667	0.52	0.6573	0.1373

¹ The trigger price for minor oilseeds is below the loan rate. Thus, there can be no counter-cyclical payment for minor oilseeds.

² USDA is prohibited by law from publishing a price estimate for cotton, but is required to publish an estimated counter-cyclical payment. That means USDA must estimate the national average price to pay advanced counter cyclical payments.
