Kansas State University, County Extension Councils, Extension Districts, and United States Department of Agriculture Cooperating, Gary Pierzynski, Interim Director.

**Kansas State University**

**Using Excel**  
**Spreadsheets**  
**Effectively**

**Using Excel for:**

- Estimating Machinery Costs
- Budgeting and Enterprise Analysis
- Calculating Principal and Interest Payments
- Analysis of Livestock Economics

**As well as:**

- Tips and Tricks for Using Excel
- Other Decision Tools on *AgManager.info*

**Kansas State University**  
**Department of Agricultural Economics**

## Skills to be learned:

- Mathematical calculations
- "Sum" & "Sumproduct" functions
- Link information from other sheets
- Calculate breakeven prices & yields
- Use what-if analysis
- Utilize financial functions
- Use ""If" functions
- Create and use look-up tables
- Excel tools on *AgManager.info*

**Computers will be provided, or  
bring your own,  
if you have Excel on it.**

## SPONSORS:

**K-State Research and Extension**

**Butler County Extension**

**Kansas State University  
Dept. of Agricultural Economics**

*"Knowledge for Life"*

## SPEAKERS

### Kevin Dhuyvetter

Kevin Dhuyvetter is a professor and the State Extension director for Agricultural Economics. He assists farmers, landowners, and others throughout Kansas with risk and return assessment of alternative crop and livestock production and marketing systems. He works extensively with land-related issues such as buying and leasing land. Current research projects are looking at factors impacting land values, economics of no-tillage and other crop-related production technologies, and factors affecting feeder cattle prices and basis. One of Kevin's trademarks is his development of decision tools that can be used to help clientele with the myriad of decisions they face in their operations.

### Rich Llewelyn

Rich Llewelyn is an Extension Assistant in the Department of Agricultural Economics at K-State. Raised on a farm near Riley, KS, he is a three-time graduate of K-State with a B.S. degree in Agronomy, and a Masters and PhD in Agricultural Economics. He then spent 13 years teaching economics and working with urban community development in East Java, Indonesia before returning to Kansas in 2006 to work with the *AgManager.info* website and departmental conferences, including the Risk and Profit conference and the state-wide Ag Profitability conferences. He has also taught the "Price Analysis and Forecasting" course for undergraduate students and uses Excel in class as well as for a multitude of uses.
