2008 RISK AND PROFIT CONFERENCE

Management Analysis & Strategic Thinking Now Enrolling Classes Begin November 11-12, 2008

Distance Education for Agricultural Producers

The MAST Program combines new information and decision-making tools with distance education for geographically isolated farmers and ranchers, ag lenders, and agribusiness professionals. An innovative distance education program for progressive farmers and ranchers, MAST delivers farm management information via state of the art technology that fits your needs. Classes are enrolling now for the fall.

How the Program Works:

MAST begins with a two-day workshop on the K-State campus where program participants are introduced to key management tools and concepts to be emphasized in the program. For the next three months, participants learn through distance education methods, and progress through several learning modules focusing on various farm management tools and their application. After completing the distance education portion of the program, participants return for a final two-day program that will emphasize applying tools and concepts to their individual farm situations.

For more information about the MAST Program contact:

Alicia Goheen
Program Coordinator
Phone: (785) 532-4434
Fax: (785) 532-6925
agoheen@agecon.ksu.edu

Visit our website: www.AgManager.info/MAST for more details -- or check out the brochure included in your Risk and Profit materials.
