

KANSAS FARM MANAGEMENT ASSOCIATION

Building Strong Relationships...Producing Excellence

With more than 80 years of experience serving producers, the Kansas Farm Management Association (KFMA) maintains a long term commitment to Kansas agriculture. Twenty-five KFMA Economists, who are faculty members in the Department of Agricultural Economics, comprise the professional staff of the KFMA program. The Economists work cooperatively with farm families to provide members with production and financial management information that can be used when making farm business and family decisions. KFMA Economists assist producers by providing the following information and services:

- Sound farm accounting systems
- On-farm visits
- Accrual basis whole-farm and enterprise analysis
- Financial benchmarks for comparing performance with similar farms
- Year-end tax planning and management
- Integrated tax planning, marketing and asset investment strategies
- Assistance with estate planning and farm succession planning
- Guidance for business entity and structure planning
- KFMA Newsletter
- Improved decision making

The Kansas Farm Management Association Program is organized into six regional associations. Further information can be found on the KFMA Program website: www.kfma.ksu.edu; or by contacting one of the KFMA offices listed below:
